

ALUMINI TESTIMONIAL

DR ALTAF A. KHAN. (ANGUTHIWALA)

Purushottam high school, BATCH: 1992/93

Thinking Positive is wise but reasoning out your thoughts positively, rationally is completely different version of story, I learn't that in PURUSHOTTAM HIGH SCHOOL, teachers generally teach you how to count, in my SCHOOL my teachers taught me what "counts" that shaped me what i am today, a person with the prefix DR'. Throughout my yesteryears from my NURSERY DAYS i was pushed to the limits by my teachers one amongst them being my FAV NUTAN MAM till the time i completed my 10TH STD with flying numbers DISTINCTION.

I recall our principal PREMA MAM she used to tell me "Any men can rise to heavens if mind is put to work" it lifted my spirits as such i never looked back and here i am all groomed up, I also recall my fav teacher NUTAN MAM always saying "ALTAF remember THE true measure of a good men is how he treats someone who can do him absolutely no good" these were/are the ladies who will always be dear in sight, dearest when not in sight to me, now when i look back I can't find words to frame my thoughts to express how thankful i am to PURUSHOTTAM HIGH SCHOOL. although one word can't justify my great-fulness to all of them yet....

GRATITUDE.

ALTAF A. KHAN (ANGUTHIWALA)
